

**Updated 7/8/10**

Qualifying gas steam cooker models must have a tested heavy load potato cooking energy efficiency of 38% utilizing ASTM Standard F1484.

Qualifying electric steam cooker models must have a tested heavy load potato cooking energy efficiency of 50% utilizing ASTM Standard F1484.

List effective as of January 1, 2010. Check your utility rebate application for terms and conditions, and effective program dates.
